Total Sales by City

Total Sales by Product and Warehouse

Insights & Anomalies

1. Days with Exceptionally High or Low Order Volumes

Insight: Tuesday consistently has the highest order volume, indicating a peak in purchasing activity early in the week. In contrast, Thursday shows the lowest order volume, suggesting a mid-week dip.

2. Warehouse with Highest Sales Contribution

Insight: Warehouse ID 35 stands out with total sales of 2,946,808, indicating a significant share of the company's revenue from this location.

3. Lower-Performing Product Types

Insight: Various salad products are among the lower-performing items in terms of sales, indicating a possible need to adjust inventory or promotion for these items.

4. Unusually High Sales of a Specific Product in a Certain Month

Insight: Crab sticks recorded high sales, totaling 687,869 in August month. This spike could suggest seasonal demand or a successful promotion.

5. Product Categories with Consistent Sales Growth Over Time

Insight: Soft drinks had total sales of 7 million, suggesting a strong and consistent demand. This product category could be experiencing growth or benefiting from regular consumption trends.

6. High Sales for a Specific Product Category in Certain Cities

Insight: Dairy products show high sales in St. Petersburg, indicating strong regional demand for these items.
